CLAY M. PENDLETON, M.D.

BCG INSTRUCTIONS

Instructions for patient:

- *Limit fluid intake 4 hours prior to procedure. Do not drink caffeinated drinks 4-6 hours before and 2 hours after procedure.
- *Empty your bladder immediately prior to procedure.
- *Do not urinate 2 hours post procedure and change positions every 15 to 20 minutes for 2 hours.
- * The patient may experience burning with urination and/or urinate in small amounts.
- * The patient will need to clean the toilet with 2 cups of bleach after each voiding for the first 24 hours after the BCG has been instilled.
- * Contact our office immediately if you experience fever, chills, flank pain, nausea or vomiting. 970-871-9710
